Accomplished Agile Project Manager and Construction/Project Professional with extensive experience leading multi-disciplinary teams and delivering complex projects across IT, construction, and community-focused sectors. Skilled in Agile, Scrum, SDLC methodologies, and project management tools such as Jira, Confluence, Microsoft Project, and AutoCAD, with a proven track record of improving delivery timelines, optimizing workflows, and ensuring regulatory compliance. Adept at stakeholder management, cross-functional collaboration, and process improvement, leveraging data-driven insights to enhance decision-making and operational efficiency. Demonstrates strong expertise in site management, capacity planning, and risk mitigation, combined with a commitment to fostering inclusive, client-centered environments.

TECHNICAL SKILLS

- Agile Tools: Jira, Trello, Gantt chart
- Collaboration Platforms: Microsoft Teams
- Project Management Tools: Microsoft Project
- Documentation Tools: Confluence
- Cloud & Collaboration Tools: Microsoft Windows Server, Google Suite, Microsoft Office Suite, Slack, Zoom, Team Viewer

CORE COMPETENCIES

- | | | |
|------------------------------|------------------------------|-------------------------------|
| Agile & Scrum Frameworks | Risk Assessment & Mitigation | Budgeting & Cost Control |
| Sprint Planning & Execution | Change Management | Timeline & Milestone Tracking |
| Resource Allocation | Milestone Tracking | Requirements Gathering |
| Stakeholder Communication | KPI Analysis & Reporting | Cross-Functional Teams |
| Project Lifecycle Management | Continuous Improvement | Problem-Solving |

PROFESSIONAL EXPERIENCE

Agile Project Manager

Amdari Inc. - UK

May 2025 - Present

- Coordinated Agile ceremonies across two Scrum teams using Jira and Microsoft Teams, improving sprint delivery timelines by 25% and boosting team throughput by 18%.
- Partnered with six Product Owners to refine 250+ user stories in Jira, achieving 98% sprint readiness and enhancing backlog prioritization efficiency.
- Delivered IT projects leveraging Agile, Scrum, and SDLC methodologies, reducing project delays by 20% through proactive planning and cross-functional collaboration.
- Facilitated daily stand-ups, sprint reviews, and retrospectives to strengthen communication, resolve blockers within 24 hours, and maintain team focus on sprint goals.
- Designed and maintained Jira and Confluence dashboards, tracking velocity, burndown charts, and cycle time, providing real-time visibility for stakeholders and executive reporting.
- Streamlined documentation using Confluence and Microsoft Project, reducing project knowledge gaps by 30% and ensuring compliance with governance standards.
- Managed sprint capacity planning with Gantt charts and Trello, aligning resource allocation with project milestones and improving delivery predictability by 15%.
- Led cross-departmental collaboration via Microsoft Teams and SharePoint, accelerating decision-making and reducing meeting time by 20%.

Site Manager

ASG Limited (Arise and Shine Group Ltd), Bradford, United Kingdom

January 2025 – May 2025

- Plan, coordinate, and manage day-to-day on-site construction activities to ensure smooth workflow, efficient task execution, and alignment with project timelines.
- Ensure all construction work adheres to UK building regulations, safety standards, company policies, and client specifications, maintaining full regulatory compliance.
- Monitor project progress against established schedules, budgets, and quality benchmarks, identifying variances early and implementing corrective actions.
- Supervise construction teams, subcontractors, and site personnel, fostering a safe, disciplined, and high-performing work environment.

- Enforce strict adherence to health and safety policies, conduct regular toolbox talks, perform daily site inspections, and implement hazard-mitigation measures to reduce operational risks.
- Oversee procurement planning, supplier coordination, and timely delivery of materials, tools, and equipment to avoid delays and maintain continuous workflow.
- Maintain comprehensive site documentation, including daily site diaries, progress reports, safety logs, risk assessments, method statements, and material inventory records.

Prison Custody Officer

Sodexo Justice Services, Peterborough, United Kingdom

October 2024- Present

- Monitored prisoners' behavior, movements and whereabouts within the establishment ensuring rules are followed to maintain a safe, secure and healthy environment.
- Conducted a comprehensive cell, individual and area searches to prevent the possession or use of contraband.
- Safely escort the prisoners within the facility or external locations such hospitals visit and courts appearances
- Encouraged and facilitate the prisoner's participation in vocational, educational and behavioral development and programs. I also signpost and give needed information/ assistance that will help prisoners engage better in custody.
- Promote pro social behavior and encourage prisoners to develop positive and acceptable social culture and value.
- Monitor and support the physical and mental well-being of prisoners, including suicide prevention and safeguarding vulnerable prisoners.
- Keep accurate records of incidents, reports, and document unacceptable behaviors. I do routine logs and liaise with my supervisor, other staff, law enforcement and external agencies as needed.

Assistant Site / Setting-Out Engineer (Temporary Contract)

Zantic Construction, Aylesbury, United Kingdom

June 2024 – October 2024

- Supported the engineering survey team in capturing accurate site topography, enabling precise planning of groundwork activities and improving overall project accuracy by more than 20%.
- Carried out comprehensive setting-out duties, pre-pour inspections, and as-built data capture using advanced surveying tools, ensuring all construction elements were positioned with high precision.
- Implemented accurate and timely level-control procedures that supported uninterrupted workflow, facilitated smooth coordination with construction teams, and helped maintain project deadlines.
- Extracted and transferred key technical information from construction drawings to site applications using DXF and ASCII file formats, enhancing data accuracy during field operations.
- Streamlined point-placement processes by integrating Excel dataset outputs into AutoCAD, reducing manual errors and improving survey productivity.

Volunteer Community Listener/ Researcher

Healthwatch, Peterborough and Cambridgeshire, United Kingdom

April 2023- Present

- Attending social and community engagements to gather views of the community regarding their experiences about accessing their local social and health care providers.
- Support campaigns to raise awareness and give information about health and social services.
- Providing individuals with information needed to make choices or raise concerns about their health and care.
- Gathering all reports and feedback which highlight findings to improve social and health care and sending to NHS leaders and other decision makers.
- Listening to peoples' experiences of health and care at local community engagement events.
- Helped to develop young people's survey and identity issues that are important to them.

Life Practitioner (Support Worker)

Gap Healthcare, Peterborough, United Kingdom

August 2023 – June 2024

- Built strong, trusting, and supportive relationships with residents by delivering person-centered care tailored to individual needs.
- Assisted service users with daily living tasks such as cleaning, laundry, ironing, grocery shopping, and meal preparation to promote comfort and independence.
- Provided high-quality personal care for individuals of varying ages and abilities, ensuring dignity, respect, and cultural sensitivity always.
- Offered companionship and emotional support, helping residents feel valued, socially connected, and mentally stimulated.

Project Associate (Off-Site)**Myrtle Alliance, Ottawa, Canada****July 2021 – March 2023**

- Supported building design, construction, renovation, and landscape development projects, including interior design concepts, furniture fabrication/installation, and research-based design synthesis.
- Communicated graphical and technical design intent to clients and stakeholders, managing expectations and ensuring seamless integration of BIM tools into project workflows.
- Led and monitored project scope development, preparing cost estimates, budgets, timelines, and resource plans to support effective project delivery.
- Ensured accurate project scoping by understanding key customer needs and translating requirements into actionable plans.

Project Partner**Lawromhes Design Afflatus Ltd.****February 2013 – June 2021**

- Developed company goals and targets by analyzing previous project performance and forecasting future trends to optimize operational efficiency and business growth.
- Monitored financial aspects of projects, including budgets, BOQs, expenditures, and income, flagging discrepancies to accountants for timely resolution.
- Prepared and maintained detailed project management calendars, outlining timelines and milestones to ensure the timely completion of deliverables.
- Assisted in procurement and requisition of materials, coordinating with consultants, subcontractors, supervisors, planners, quantity surveyors, and the general workforce to maintain smooth project execution.

Assistant Project Manager**Laralek Ultimate Ltd****July 2020 – December 2020**

- Prepared professional presentations for clients outlining project scope, timelines, progress updates, and final deliverables, ensuring clarity and transparency.
- Forecasted, procured, and managed construction materials, verifying equipment records to identify shortages or missing items, maintaining uninterrupted project workflow.
- Developed and maintained strong relationships with clients and commercial contacts, enhancing client satisfaction and supporting business growth.

Architectural Assistant**Accelerated Development Company Ltd****March 2009 – April 2010**

- Created detailed layouts and designs for large-scale commercial and residential projects using computer-aided design (CAD) software, including AutoCAD and Revit.
- Conducted site surveys to gather critical data, informing site development drawings and ensuring designs aligned with project requirements.
- Reviewed design specifications and requirements to propose the most efficient and feasible building solutions.

Architectural Intern**AM Design Consult, Kaduna, Nigeria****May 2008 – February 2009**

- Prepared and scaled architectural presentation drawings and working plans using CAD software, ensuring accuracy and compliance with design standards.
- Developed schematic designs, including job diagrams and layouts for new projects, providing clear visual guidance for project execution.

EDUCATION

Diploma in Civil and Setting out Engineering - Buckingham school of Civil and Setting out Engineering, Milton Keynes, United Kingdom 2023

Postgraduate Diploma in Architecture - Federal University of Technology, Akure, Ondo State Nigeria. 2012

Higher National Diploma in Architecture - Kwara State Polytechnic, Ilorin, Kwara State, Nigeria. 2007

CERTIFICATION

Agile Project Management - 10Alytics

SMSTS (Site Management Safety Training Scheme)

CSCS Managers and professionals (MAP)

CSCS operative

First aid at work (British Red Cross)

Level 3 Certificate in Civil and Setting Out Engineering.

Asbestos awareness for managers and supervisors.

Fire Warden (Fire Marshal) Training V4.4
